## RESIDENTIAL DEMOLITION PERMITS

Individuals applying for the demolition of a residential dwelling that is serviced by an onsite sewage system (septic system) and/or water well shall be referred to the Lake County Health Department for review.

The applicant will need to provide a scale drawing indicating the property lines and the locations of the dwelling to be demolished, the existing sewage disposal system (including the septic tank) and the onsite water well(s).

The applicant will also need to sign statements agreeing to abandon the onsite sewage system in accordance with the Indiana State Department of Health Rule 410 IAC 6-8.3-90 and to abandon the well(s) in accordance with Indiana Administrative Code 312 IAC 13-10-2.

The Lake County Health Department will provide the applicant with an “approved,” stamped copy of their review to use for completion of their demolition permit request from the Lake County Plan Commission.
